Pre-engineered modular buildings offer a number of benefits when compared to traditional construction:

Ease of Coordination
PortaFab will handle the entire installation of your building, so that you do not need to spend valuable time away from your job.

Reduced Labor Costs
Prefabricated components can be installed quickly, resulting in a lower cost of labor.

Consistent Quality & Appearance
Our pre-engineered components can be integrated with one another to maintain a seamless and professional appearance.

Adaptability
Our flexible buildings can be expanded or relocated quickly and easily to grow with your company.

No Mess
Pre-engineered components result in a cleaner installation with minimal disruption to surrounding facility.

Green
Since construction waste is reduced with modular construction, a facilty can earn LEED points to improve its Green Building Rating.

Our complete prefab kits include everything needed for a basic modular inplant office. All models include:
